

The Prevention Practitioners Network

Mission:

The Prevention Practitioners Network is a national network of interdisciplinary professionals dedicated to preventing targeted violence, terrorism, and their impacts within the United States.

Background:

Established through a partnership between the McCain Institute, the Anti-Defamation League, and the Institute for Strategic Dialogue, this network aims to increase the efficacy of locally based prevention and intervention programs and, where appropriate, expand referrals to qualified programs.

The architecture and implementation of this network has been made possible through funding from the Department of Homeland Security's Targeted Violence and Terrorism Prevention Grant Program.

Membership Review Committee

The Membership Review Committee provides recommendations about membership criteria to the Prevention Practitioners Network Advisory Board to enact. The Advisory Board will approve membership criteria put forth by the Membership Review Committee on an annual basis.

The Membership Review Committee also:

- coordinates outreach for new members to join the Prevention Practitioners' Network and ensures continual growth of the network;
- manages intake of new network members by reviewing applications and accepting new members;
- oversees management of the internal directory of all members; and
- ensures members who list their services on the public-facing directory have the correct resources needed to keep their profiles up to date.

For more information or to register your interest in joining this Committee, contact us at
